

Business Bundles

CRITICAL INFORMATION SUMMARY INFORMATION ABOUT SERVICE

SERVICE DESCRIPTION

This is an office phone and broadband bundle delivering an office phone service for standard phone lines as well as broadband Internet service on our own network, or where our network is not available, using wholesale services supplied to us by Telstra. You can transfer your existing office phone and broadband services or activate new services with Commander.

MINIMUM CONTRACT TERM

36 Month

BUNDLING ARRANGEMENTS

Bundling is optional. By bundling two (2) services you receive:

- a discount off the total stand-alone monthly access fees for the services
- a waiver of normal set up fees (must have active phone line).

All services must be active for the discount to be applied. If you cancel or transfer away any active service, the monthly discount will no longer be available and your minimum monthly access fee will revert back to the monthly standalone charge per service. Basic PSTN stand-alone \$55 or Basic Broadband stand-alone \$70, Advanced PSTN stand-alone \$99 or Advanced Broadband stand-alone \$80.

KEY DETAILS

The Business Bundle Plans Monthly Bundle Fee includes PSTN Line Rental, included calls & data (see Pricing Table for specific plans). Included data is based on the greater of the uploaded or downloaded traffic. You pay an additional amount for making other types of calls.

You will be supplied with the fastest speed available at your location - ADSL2+ or ADSL where ADSL2+ is not available. A maximum of ten (10) Business Bundles may be combined on a

single account. Plan is subject to service availability at your location. Business Bundle plans are not available for resale or high volume telemarketing purposes and are only available to new customers.

Your current plan could overlap with the rollout of the nbn in your area. NBN availability can be checked using our Rollout Map commander.com.au/support/internet-bundles/rollout-map. If so, you agree that Commander will transition your services when they become ready for service to the nbn network. Your service will be migrated to nbn on the same terms and conditions as your then-current contract. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations including but not limited to NBN Professional Install or Valet Offerings may require you to pay additional charges. Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Once you have upgraded to the nbn network you will not be able to move back to a copper service.

HARDWARE

Supporting Internet connectivity hardware is required to use this service. You may use your own modem or a Business Gateway can be provided - see 'Information about Pricing'. The Business Gateway is pre-configured, customer self-installed and includes instant activation with 4G Backup. 4G Backup provides an alternative Internet connection (max. speeds up to 12/1 Mbps) when your fixed Internet service has failed or is waiting to be activated (not available in all areas).

For more information: commander.com.au/support/internet-bundles/business-continuity. Please note that support is only available for Commander approved modems. For a list of approved modems, call Customer Service on 132 777.
